

BIO-ASSIMILATION

ANTI-MICROBIAL

ANTI-FUNGAL

TRACER

REDUCER

smartplastic™

Bio-Assimilation Additive

Makes plastic degrade naturally

- Traditional plastic does not rapidly degrade, contributing to litter
- Uniquely formulated to provide controlled useful-life prior to rapid 100% natural biodegradation
- Contains no heavy metals
- Can be recycled
- No plastic filament residue in soil
- Simple 1% inclusion in finished film production process
- Extensive independent testing proven reliability
- Not designed for use in PET
- Made in U.S.A.

Small changes that make big differences

SmartPlastic additives are inserted into the production process at very small percentages along with other standard ingredients.

The resulting "Smart Plastic" is changing industries and making a difference in people's lives.
